LIME BAKING POWDERS.

Why the "Royal" is Absolutely Pure.

Analysis shows the presence of Tartrate of Lime in several brands of Baking Powder placed upon the market "CLEVELAND'S" baking powder contains tartrate of lime "H'NEORD'S" baking powder contains tartrate of lime "TIP TOP" baking powder contains tartrate of lime.

"HECKER'S" baking powder contains tartrate of lime "DE LANDS" baking powder contains tartrate of lime "GILLETS" baking powder contains tartrate of lime All BULK baking powders contain tartrate of line.

The presence of this substance in the above named Baking Powders results from the use of inferior Cream of Partar in their manufacture The Cream of Tartar of the market, from which they are made, contains Taitrate of Line in amounts varying from six to twenty per cent, and hence these powders contain this impurity as a foreign substruce to a corresponding extent, which is of no value, but positive detriment in any powder in which it is totalid

NO LIME IN ROYAL BAKING POWDER.

The Royal Baking Powder is made from Creum of Threat specially refined and prepared for its use by patent processes by which the Tartrate of Lime is totally elim

This highly important result has been attained only with great care, labor, and expense In money alone a quarter of a million dollars has been invested in patents mathinery, and appliances by which the crude Cream of Turtar, being procured direct from the wine districts of Europe and subjected in this country to these exclusive, In cesses, is rendered entirely free, not only from the obsectionable Tartrate of Lime, but from other foreign sui-

This adds greatly to the cost of manufacturing Royal Baking Powder, but as all its other ingredients are is lected and prepared with the same precise one, and regard less of labor or expense, an article is produced that is entirely free from any extraneous substance, and chemically pure in all respects.

No lime, earth, alum, or impurity of any kind car, la anady ertence or by the use of adulterated articles or que wisd, be introduced into the "Royal," and it contains i ingredients except those certified by the most emment che 1948 necessary to make a pure, wholesome, and perfect link mg Powder.

It costs more to manufacture the Royal Baking Powner than gay other, but it is, as shown by chemical manthe only "absolutely pure Baking Powder in ide
